

PROJEKT „UPOZNAJEMO SVIJET“

BRAZIL

Veleposlanstvo Brazila u Zagrebu poslalo je našim učenicima prigodne poklone u sklopu našeg projekta.

RAZREDNA NASTAVA

Učenica 2. razreda pogledala je edukativan video o Brazilu i saznala nekoliko zanimljivih činjenica.

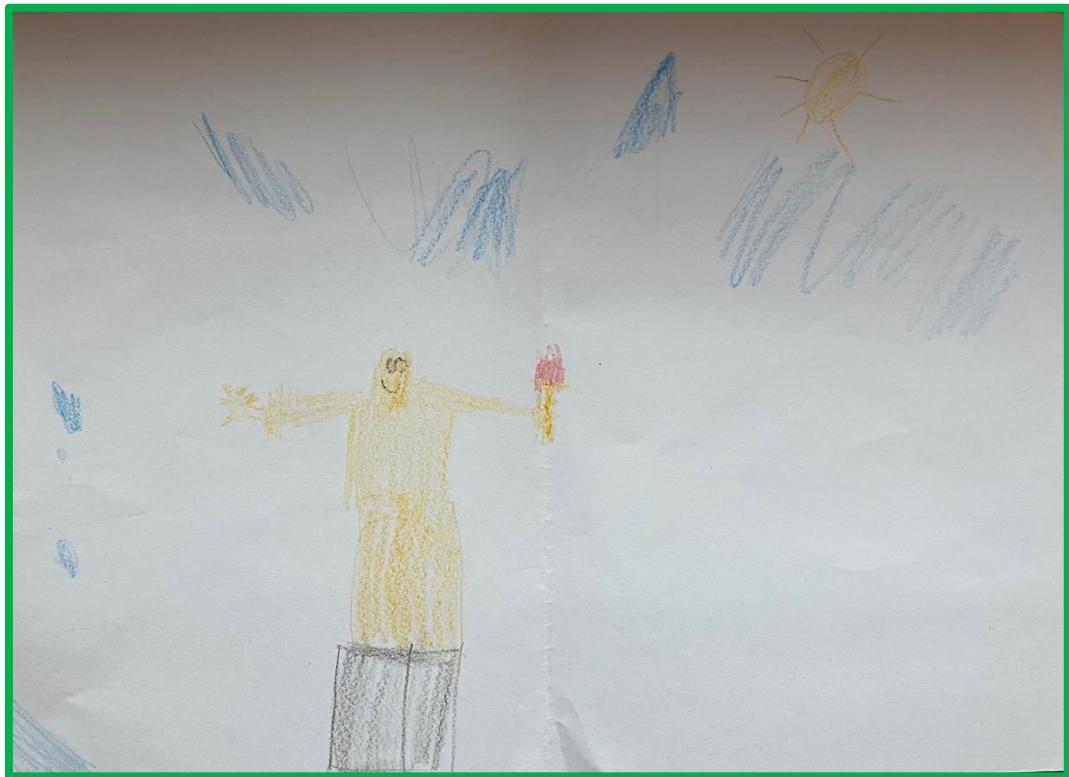

1. Jeste li znali da je Brazil peta najveća zemlja na svijetu?
2. Glavni grad zove se Brasilia.
3. Službeni jezik je portugalski.
4. Tamo se nalazi najveća svjetska prašuma: Amazonska prašuma.
5. U Brazilu možete pronaći roze dupine!
6. Svake godine obilježava se veliki brazilski karneval koji dolazi posjetiti velik broj ljudi iz cijelog svijeta!

Potaknuti svim saznanjima koje su kroz različite aktivnosti naučili o Brazilu, učenici Škole u bolnici crtali su brazilsku zastavu.

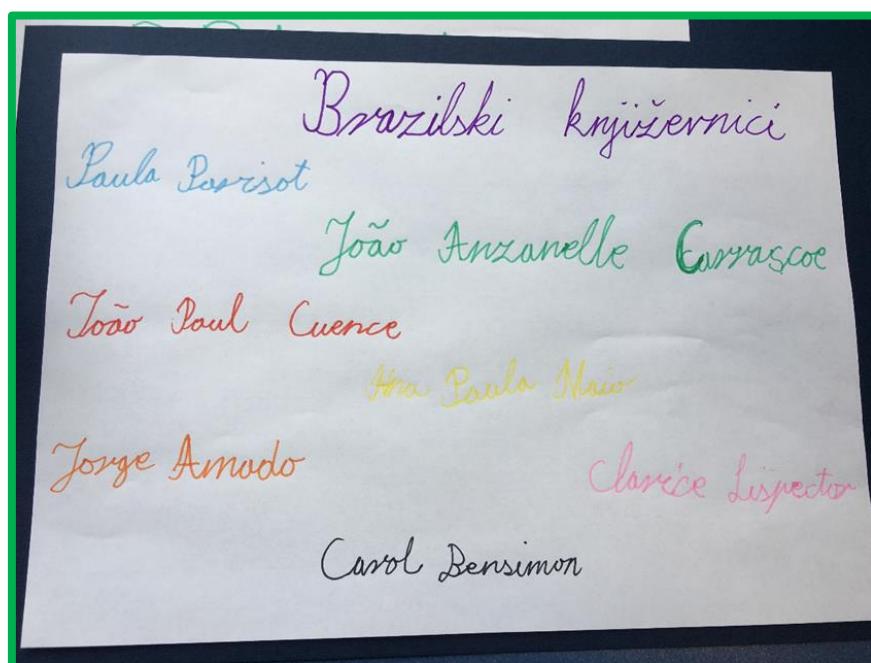

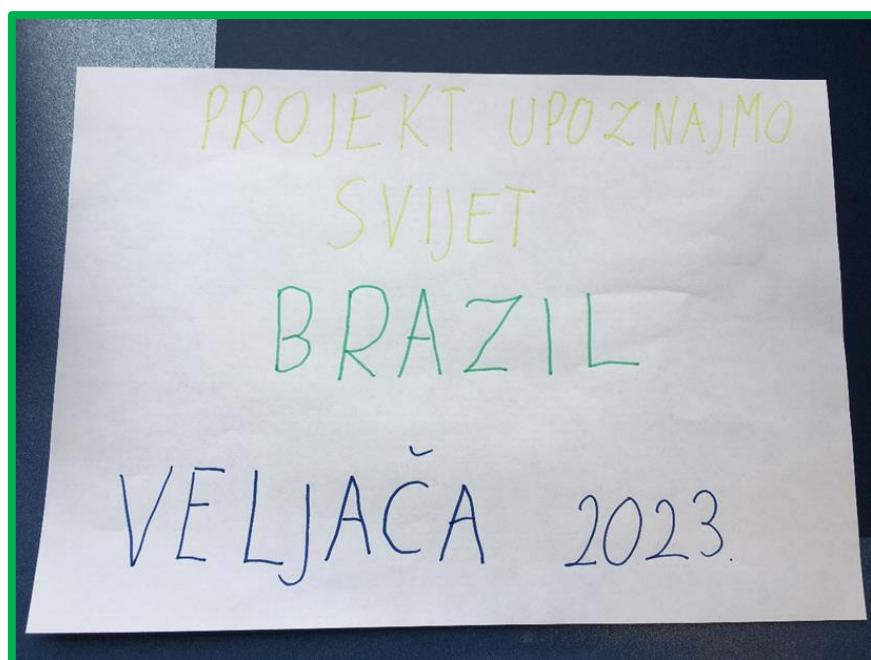

Prezentacija o Brazilu, raznovrsne kulturne znamenitosti i činjenice o Brazilu dojmile su se učenika prvoga razreda, što je rezultiralo ovim crtežem – Christ the Redeemer (Kip Krista Iskupitelja) u Rio de Janeiru.

HRVATSKI JEZIK

U veljači smo kroz projekt Upoznajemo svijet pobliže upoznavali Brazil. Učenici Škole u bolnici od petog do osmog razreda uživali su upoznavajući značajne brazilske književnike poput: Paule Parisot, Joao Anzanelle Carrascoe, Joao Paul Cuence, Ana Paula Maia, Jorge Amado, Clarice Lispector, Carol Bensimon...

ENGLESKI JEZIK

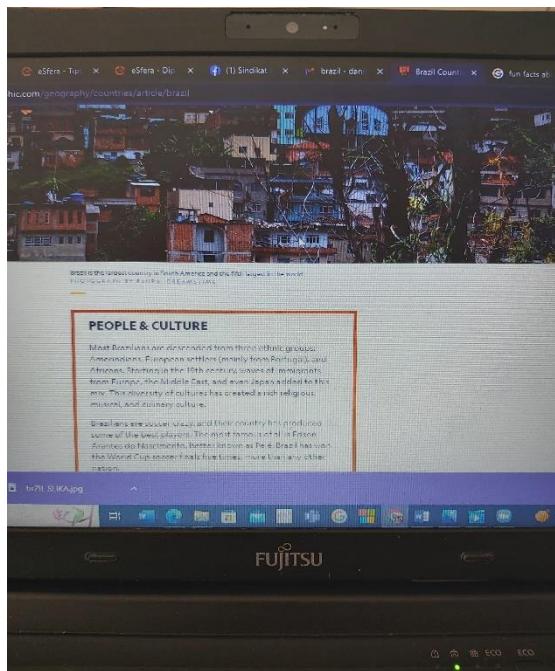

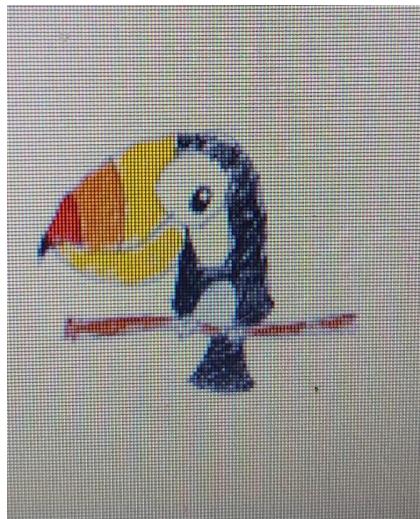

U sklopu nastave engleskog jezika u vezi projekta „Upoznajemo svijet“ – Brazil, učenica

BRASILIAN TOUCAN

Most Brazilians are descendants from three ethnic groups: Amerindians, Portuguese settlers (mainly from Portugal), and Africans. Starting in the 19th century waves of immigrants from Europe, the Middle East, and even Japan settled in Brazil. This diversity of cultures has created a rich religious, musical, and culinary culture.

Brazilians are known for their的热情 (enthusiasm) and love of football (soccer). Brazil has hosted the World Cup, soccer finals from United States, and many other nations.

GEOGRAPHY

Brazil is the largest country in South America and the fifth largest nation in the world. It forms an extensive triangle on the eastern side of the continent with a 4,500-mile (400-kilometer) coastline along the Atlantic Ocean. It lies borders with every South American country except Chile and Ecuador.

The Brazilian landscape is very varied. It is most well-known for its dense forests, including the Amazon, the world's largest jungle, in the north. But Brazil also has dry grasslands (called "pampas"), rugged hills, pine forests, sprawling wetlands, numerous rivers, and a long coastline.

Northern Brazil is dominated by the Amazon River and its many tributaries. The Amazon is not only the longest river in the world, but it is also the widest, at over 12,000 feet (3,800 meters) at its mouth. The Amazon is fed by over 1,100 rivers, creating a 4,220-mile (6,800-kilometer) network of waterways in the world, making it one of the most important in the world.

INFORMATIKA

U sklopu projekta Upoznajemo svijet kroz izvannastavne aktivnosti iz informatike upoznali smo Brazil. Prvo smo malo pretraživali i saznali neke osnovne informacije o državi, a onda su učenici nižih razreda u programima Bojanje i Bojanje 3D nacrtali maske, inspirirani Brazilskim karnevalom te najpoznatiju atrakciju i zaštitni znak grada Rio de Janeiro u Brazilu - statuu Isusa, poznatu kao Cristo Redentor na brdu Corcovado.
